CLARK

NATIONAL ACCOUNTS

CLARK NATIONAL ACCOUNT PROGRAM

Do You:

- Have multiple locations across a state, region, or the country with centralized or decentralized purchasing?
- Find yourself managing a variety of forklift brands with multiple vendors?
- Deal with inconsistent pricing through your purchasing cycles?
- Spend time analyzing ways to reduce your cost of ownership on your forklift fleet?
- Need more time to focus on your business instead of your forklift fleet?

If you find yourself answering “yes” to any of the above questions, then the CLARK National Account Program is the solution for you.

With over 100+ years of experience in the material handling business, the CLARK National Account Program provides you with the solution you need to make your business more productive and efficient.

Finally, a solution that simplifies your forklift experience from a brand you can trust!

LEXINGTON, KY-AMERICAN HEADQUARTERS

CLARK NATIONAL ACCOUNT PROGRAM

Benefits Include:

- One point of contact for all your locations
- National account pricing for multiple locations – leverage your size and locations to achieve consistent pricing
- Flexible maintenance options available – with 200+ authorized servicing locations across the country, we have the infrastructure to support the coverage for service, parts & rentals
- Long-term rental solutions – our extensive rental program options are designed to help you sustain and grow your business
- Finance options available – CLARK will work with our partners to provide finance options to fit your needs
- Expansive and centrally located distribution center –located in Louisville, KY and housing nearly 40,000 items for over 150,000 product applications, our parts warehouse takes orders as late as 8:00pm ET for next day delivery
- Assembly facilities in Lexington, KY – our CLARK North American headquarters assembles six of our most popular models including the state-of-the-art S-SERIES, all to provide you with quick solutions for your forklift needs
- Global offerings available upon request

ABOUT CLARK

With over one million CLARK lift trucks sold around the world, each is a testament to the CLARK time-tested process of designing durable trucks with precise features that meet, if not exceed, the material handling needs of our customers. Our full range of highly dependable products – from pallet jacks to electric narrow aisle order selectors and up to our big 18,000lb capacity lift trucks – assures end-users CLARK has the solutions for their day-to-day needs.

These customer-focused solutions built from numerous industry innovations – from the nested I-Beam to a self-activating parking brake to new on-board diagnostics – and it all began the same way: with the needs of our customers foremost in mind. By focusing on how we can improve our customers' material handling processes, combined with award-winning dealers and parts support, we assure our customers a lift truck designed to be the right solution for their individual application.
