Overall Width	63"
Weight	423 lbs.
Steer Wheels	10" x 2.25"
Load Wheels	15" x 4.5"
Wheels/Rollers	Rubber

Description

The **CJ33ST Manual Straddle Pallet Jack** is designed to enable the operator to lift and transport loads on uneven ground or floors. Ideal for construction sites, it features adjustable forks to handle various sized pallets or skids.

Standard Features

Frame

- Rugged Heavy Duty Frame constructed of one-piece formed channel steel offering light weight strength.

Forks

- Reinforced for added strength with ramped ends for easy pallet entry.
- Adjustable to handle different sized loads.

Paint

- The CJ33ST boasts a quality Powder Coat finish.

Hydraulic Pump

- Quality design complete with a special lowering valve allowing controlled rate of descent, and an overload bypass valve.

Handle

- Featuring a reinforced base, the spring-a-matic handle returns to the upright position automatically.

Control Handle

- The control handle has three positions (raise/neutral/lower) fingertip control. Ergonomically designed and free of pinch points.

Pump Stroke

- Features a full 90 degree top to bottom stroke requires only 10 strokes to raise the forks to the maximum lift.

Steering

- Featuring 200 degree pivot action for greater maneuverability with 10" rubber Steer Wheels, sealed bearings and "Ball-Thrust" steering.

Load Wheels

- Features 15" rubber wheels with sealed bearings.

Pivot Points

- The CJ33ST features grease fittings and bushings at all pivot points for easy maintenance.
