## Description

The **CJ55H/A/70H/100H Heavy Duty Pallet Jacks** are built for high hours applications and features the same exceptional maneuverability, rolling ease and versatility as the standard CJ55 while adding increased durability. An additional foot release mechanism, unique pump piston dust cap, a more durable bell crank design and incorporated one-piece reinforced forks provide greater strength.

## Standard Features

### Frame

- Rugged Heavy Duty Frame constructed of one-piece formed double C-channel steel and reinforced gussets offer light weight strength.
- Reinforced bulkhead header provides increased strengthened piston seat.

### Forks

- Reinforced one-piece forks for added strength with solid tapered ends for increased strength and easy pallet entry.

### Paint

- The CJ55H boasts a quality Powder Coat finish.

### Hydraulic Pump

- Leak proof with overload capacity, the maintenance free pump features a hard chrome plated lift cylinder & piston, quality polyurethane seals & wipers, and an easy to remove cartridge design.
- A unique Pump Piston Dust Cover prevents damage to the top seal from dust and debris. New additional foot release pedal provides operation versatility.

### Pump Stroke

- Features a full 90 degree top to bottom stroke requires only 13 strokes to raise the forks to the maximum lift.

### Handle

- Tapered for greater strength, the spring-a-matic handle returns to the upright position automatically.

### Control Handle

- The control handle has three positions (raise/neutral/lower) fingertip control. Ergonomically for left or right handed operators and free of pinch points.

### Steering

- Featuring 200 degree pivot action for greater maneuverability with 7" polyurethane wheels, sealed bearings and "Ball-Thrust" steering.
- Articulating axle allows for level transport of loads on uneven floors.

### Bell Crank

- Featuring an improved design, the ductile iron cast bell crank offers maximum strength.

### Push Rods

- The adjustable push rods allow for individual adjustment capability of either fork height.

### Hangers

- The one piece hangers are constructed of Iron Cast for greater strength and longevity.

### Helper Rollers

- Features 6 helper rollers for easy exit and entry of pallets.

### Pivot Points

- Utilizes self lubricating high impact bushings and lubrication fittings at all pivot points for improved maintenance capabilities.
